Public Notice

The Mid-East Texas Groundwater Conservation District ("District") has received a Water Well Drilling/Operating Permit application for a new water well to be drilled for Danny Daniels on a property described as 340.11 Acres, A-96 E. Fenn survey, Madison County. The well location is approximately 7.40 miles southwest of Normangee TX on David Lane off FM 1452 West. The coordinates for the proposed well location are Latitude 30° 57' 24" North and Longitude 096° 12' 31" West. The applicant is requesting a permit for the withdrawal of groundwater from the Queen City aquifer at an amount not to exceed 50 acre-feet per year. The beneficial use of this groundwater is for irrigation use.

The Drilling/Operating Permit Application has been deemed administratively complete by the General Manager and staff recommends the production of the groundwater is authorized pursuant to District Rules. To appeal this decision by District staff, a written protest of the permit application must be submitted to the District within 10 days from the publication of this notice.

Copies of the permit application and supporting documents are available by contacting the District office at (936) 348-3212 or by email at info@mideasttexasgcd.com.

David M. Bailey, Manager
